IN THE SPECIFICATION:

Please amend the specification as follows:

On page 3, please replace lines 11-17 with the following replacement paragraph:

In accordance with another embodiment, the flashlight has a power source, a switch electrically connected to the power source, an LED light source electrically connected to the switch, and a reflection housing connected to the handle and having a transparent end opposite said handle and a central support axially disposed therein. The central support has reflective surfaces positioned in front of the LED light source such that the light emanating from the LED light source is intercepted by said reflective surfaces and internally reflected within said reflection housing before being released through said transparent end.

On page 8, please replace lines 15-16 with the following:

In accordance with other embodiments, transparent end 30 can include a lens 42 that can be a magnifying lens, a diffuser type lens or a combination of both.
